PROFESSIONAL SUMMARY

Results-driven Data Analyst with 2+ years of experience in data analysis, visualization, and business intelligence. Proven track record of delivering actionable insights that drive business growth, including achieving 20-30% sales performance improvements through data-driven recommendations. Skilled in SQL, Excel, Power BI, and Tableau with expertise in statistical analysis, dashboard development, and cross-functional collaboration.

EXPERIENCES

Data Analyst | Aernings Enterprise Ltd | Lagos, Nigeria

September 2024 - Present

- Analyzed sales data using Excel and SQL to uncover trends and performance gaps, identifying key opportunities for revenue optimization
- Built interactive dashboards in Excel and Power BI to track KPIs and sales metrics, improving decision-making efficiency for leadership team
- Cleaned and structured large datasets containing 10,000+ records for accurate and timely reporting
- Delivered data-driven insights that optimized pricing, targeting, and sales strategies, resulting in measurable business impact
- Automated weekly and monthly reports using Power BI, reducing manual workload by 40% and improving report accuracy
- Collaborated with sales and marketing teams to evaluate campaign impact and ROI, providing actionable recommendations
- Ensured data accuracy through validation checks and quality control processes, maintaining 99%+ data integrity

Data Analyst | New-Age Solution for Digital, Innovation & Creativity (NSDIC) | Remote

August 2024 - October 2024

- Collected, cleaned, and analyzed large datasets to identify trends and patterns using statistical methods and data mining techniques
- Created compelling data visualizations using Tableau and Power BI to communicate findings to stakeholders across different departments
- Conducted statistical analysis and predictive modeling to inform strategic business decisions
- Designed comprehensive reports presenting data insights to senior management, improving data-driven decision making processes

PROJECTS

Sales Performance Analysis

September 2024 - October 2024

- Analyzed company growth rate using Excel and SQL, revealing satisfactory growth trajectory and expansion potential
- Conducted comprehensive analysis of branch operations across multiple locations, identifying improvement opportunities
- Discovered underperforming branch with 60% below-average sales despite full operational status
- Delivered data-driven recommendations resulting in 20-30% increase in sales performance within 3 months

Conversion Rate Analysis

October 2024 - November 2024

- Compared conversion rates among sales personnel using statistical analysis to identify top performers and improvement areas

- Conducted regression analysis to understand impact of demographic and location variables on sales conversion rates
- Analyzed correlation between location, gender, experience level, and sales outcomes using advanced Excel functions
- Provided targeted training recommendations that improved overall team conversion rates by 25%

Sales Profit Analysis

November 2024 - December 2024

- Identified key factors affecting sales profit performance through comprehensive statistical analysis
- Conducted performance analysis revealing 49% of state branches underperforming despite active operations
- Enhanced store performance and growth by 25% through accurate insights and strategic recommendations
- Developed profit optimization model using Excel and Power BI for ongoing performance monitoring

EDUCATION

University of Port Harcourt

Rivers State, Nigeria

B.Sc. Biotechnology

Jan. 2019 – Dec. 2023

TECHNICAL SKILLS

- **Analytics Tools:** Excel (Advanced), Power BI, Tableau, MySQL, SQL Server
- **Programming:** SQL (Advanced), Basic Python
- **Statistical Analysis:** Regression Analysis, Statistical Modeling, Data Mining, Predictive Analytics
- **Visualization:** Dashboard Development, Data Storytelling, Interactive Reports
- **Database Management:** MySQL, Data Warehousing, ETL Processes
- **Microsoft Office:** Advanced Excel, PowerPoint, Word, Access

CORE COMPETENCIES

- Problem Solving & Critical Thinking
 - Stakeholder Management & Communication
 - Project Management & Time Management
 - Attention to Detail & Quality Assurance
 - Data Storytelling & Presentation Skills
 - Cross-functional Collaboration
-

CERTIFICATES

Professional Data Analyst Certificate

December 2024

- Proficient in writing complex SQL queries for data cleaning, extraction, filtering, and manipulation from relational databases
- Developed expertise in joins, subqueries, aggregation functions, and window functions
- Demonstrated ability to communicate insights visually using charts, maps, trend lines, and interactive storytelling dashboards

Linear Regression for Business Statistics Certificate

April 2024

- Comprehensive understanding of mean centering variables in regression models
- Building confidence bounds for predictions using regression analysis
- Advanced techniques for variable transformation and model optimization

Google Data Analytics - Ask Questions to Make Data-Driven Decisions

February 2023

- Understanding of data-driven decision-making frameworks and analytical presentation methods
- Exploration of real-world business scenarios for effective questioning and decision-making processes
- Structured thinking methodologies for problem-solving and solution development

Google Data Analytics - Foundations: Data, Data, Everywhere

December 2022

- Key analytical skills including data cleaning, analysis, and visualization techniques
- Proficiency with analytical tools including spreadsheets, SQL, and Tableau
- Comprehensive understanding of data analyst role terminology and concepts
